(leave blank if writing on
your own behalf)

ABOUT YOUR COMMENTS

In what capacity do you wish to make representations on this case?
(Neighbour, Councillor, Owner, Tenant)

NEIGHBOUR / RESIDENT

What kind of representation are you making?

STRONG OBJECTION

YOUR COMMENTS ON THE CASE (continued)

I have been objecting to this proposal for many years in my capacity as one of Britain's most senior scientists, directly employed by the Head of State as a Civil List Pensioner, appointed for distinguished contributions to Britain in science. About 95% of those polled recently in the affected area oppose the development completely on many grounds. There are twenty opposition groups across the complete political spectrum. These groups include Swansea City and County Councils, Neath Port Talbot Borough Council, town and community councils, CADW (part of the Welsh Assembly Government itself), environmental groups, other groups and individuals.

Swansea Councils have considered these objections and have taken into account the fact that the overwhelming majority reject the proposed development. It is very cynical and very undemocratically trying to force through the proposal. AM's are fully aware of the fierce opposition to this development. The latter is due to the greed of

foreign landowners, notably the Duke of Beaufort, who will profit either by rent or by subsidy. The overwhelming majority opposes this rapacious greed. Scientifically, there is no mechanism of global warming due to carbon dioxide. The very basis of wild turbine proliferation is false and their destruction of environment, ecology and habitat is very severe. As the only Amis in the area I object in the strongest possible terms.
